HTA/OC-173-58
12 September 1958MEMORANDUM FOR: Special Assistant to the DCI for
Planning and Development

SUBJECT: Next 117L Advisory Committee Meeting

1. The next meeting of the 117L Advisory Committee will be held at Griffis AFB, Rome, New York, on 23-24 October 1958. I expect to attend and will report the results to you. If there are any particular subjects or areas of interest which you would want me to concentrate upon I would appreciate your guidance.

2. As a side note of some interest, I would report to you that the 117L Advisory Committee Chairman, Dr. Harry Goode (serving under RADC contract), just called me from Ann Arbor to ask if I had followed up on his request of me to get Col. Macia USAF, Chairman of the 117L Requirements Committee, to attend the next meeting. When I informed him that I had done this, he said that he would now like me to disengage Col. Macia from the next meeting. It would appear that RADC doesn't want Herb or an AFCEA representative at its meeting and has deliberately shifted the site of the meeting from Washington, D. C., to Rome, New York, in order to accomplish this. I have informed Herb Macia that the meeting scheduled for Washington, D. C., on 23-24 October has been cancelled and dropped the matter at that point. Perhaps RADC itself is not too happy with the 117L Program, some of the difficulties of which have already been reported to you, and would seek to get squared away before too many critics or judges entered the scene.
